

LIBRARY MANAGEMENT SYSTEM GLOSSARY

1. Introduction:

This document is used to define terminology specific to the problem domain, explaining terms, which may be unfamiliar to the reader of the use-case descriptions or other project documents. Often, this document can be used as the informal data dictionary, capturing data definitions so that use-case descriptions and other project documents can focus on what the system must do with the information.

2. Definitions:

The glossary contains the working definitions for the key concepts in the Course Registration System
